

Agenda items to be discussed/voted @ NWBSA AGM 2024

1

Change to Players Handicaps;

The current system has been in place for a period and despite some negative discussions has worked well for the Association.

In light of ongoing 'spirited' discussions I propose to alter the Handicaps to reflect a greater change upon game results.

Specifically, when a Player has played a roster match then His/Her handicap mark will move in/out by 4 points rather than 2.

This change would have the following benefits;

- New or returning players reach their rightful handicap much quicker
- A Players current form is adjusted faster
- Easier for the Assoc Handicapper to administer
- Minimise Handicap changes throughout the season
- Reduce the number of complaints re handicaps

If change is adopted then some minor changes will need addressing, including;

Max Snooker mark from 50 to 52. Starting Handicaps would be 36 (S) and 76 (B).

A number of current Handicaps will need a minor adjustment before a new roster.

2

Change to Players match fees;

The weekly match fee is overdue for an increase from its current \$5 amount to at least \$8 or even \$10 p/w.

Factors for this include the smaller amount of Teams/Players on which to draw revenue and the increase in all costs especially the last few years.

This change would have the following benefits;

- Income rise from existing \$1280 to \$2048 or \$2560
- Easier to pay required State affiliation fees
- Provide a better Financial base to other fund raising activities
- Offset the prior income received from Footy tickets
